

SUPPLEMENTAL REISSUE DECLARATION AND OATH

As the inventor named below, I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name.

I believe that I am the original, first and sole inventor of the subject matter which is claimed and for which a reissue patent is sought on the invention entitled: SUBMERSIBLE MOTOR UNIT, the specification of which was filed on March 10, 2004, as Application Serial No. 10/797,931, and was amended on September 10, 2009, and December 21, 2009.

I hereby state that I have reviewed and understand the contents of the above-referenced specification, including the claims, as amended by any amendment referred to above.

I believe the original patent, U.S. Patent No. 6,359,353, as it issued on March 19, 2002, to be wholly or partly inoperative by reason of the patentee claiming more or less than the patentee had the right to claim in the patent. More particularly, I believe the patentee claimed less than the patentee had the right to claim in U.S. Patent No. 6,359,353 by including limitations directed toward a first bearing disposed between a first end wall and a drive shaft, and a second bearing disposed between a second end wall and the drive shaft. Additionally, I believe that the patentee, by limiting the capacitor recited in the claims of U.S. Patent No. 6,359,353 to an annular capacitor, thereby claimed less than the patentee had the right to claim in the patent.

I hereby state that every error in the patent which was corrected in the present reissue application, and is not covered by the prior declaration submitted in this application, arose without any deceptive intention on the part of the applicant.

I acknowledge the duty to disclose to the Patent and Trademark Office all information known to me to be material to patentability as defined in Title 37, Code of Federal Regulations, § 1.56.

SUPPLEMENTAL REISSUE DECLARATION AND OATH

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Full name of inventor: Jack T. Bevington

Inventor's signature:

A handwritten signature in black ink, appearing to read "Jack T. Bevington", written over a horizontal line.
